Please be sure your student has a TI TI 84 calculator by January (the plus edition or CE editions are optional). These calculators are available through amazon both new and used with a price range of \$50 - about \$110. There are also many available on the used market for \$20 - 50. We recommend exercising caution in buying used calculators and be certain they are listed in good or excellent condition. A broken display is very frustrating! Contact the vendor about the condition before buying.</p>
